Task 5 – Cybercrime Awareness & Prevention

Overview

This folder contains the work completed for **Task 5**, which focuses on understanding cybercrime and promoting safe online practices.

The objective of this task is to analyze a cybercrime scenario and create a **practical prevention guide** for students.

Part A – Case Study

Topic: Cybercrime Awareness (e.g., Phishing / Online Fraud)

The case study explains:

- What the cybercrime is
- How it typically happens (step-by-step)
- Who is commonly targeted
- Possible consequences (financial loss, data breach, identity theft)

It highlights how attackers exploit:

- Urgency and fear
- Fake links and emails
- Lack of user awareness

Part B – Prevention Checklist

A **"Stay Safe Online" checklist** was created with actionable tips, including:

- Use strong, unique passwords
- Enable two-factor authentication (2FA)
- Avoid clicking on suspicious links
- Verify unknown messages and emails
- Use secure networks for transactions
- Keep software and devices updated

Financial Safety (UPI Specific)

- Never share OTP, PIN, or banking details
- Verify payment requests before approving

Reporting Channels

- National Cyber Crime Portal: https://cybercrime.gov.in
- Helpline: **1930**

Purpose

This task helps in:

- Building awareness about **real-world cyber threats**
- Encouraging **safe online behavior**
- Preparing students to identify and prevent scams

Learning Outcome

- Understood how common cybercrimes occur
- Learned practical ways to prevent digital threats
- Developed a habit of being cautious and aware online
